Thought for Today

THOT FOR TODAY—
Such fire was not by water to be
drowned, nor he his nature chan-
ged by changing ground.—Oristo

Will Not Appear Tuesday

Rep. May Indicates Willingness to Appear Before War Inquiry Group Later

WASHINGTON, July 22.—(P)—Rep. Andrew J. May (D-Ky) announced today he will not appear before the senate's war investigating committee tomorrow in response to a subpoena, but indicated a willingness to testify at a later date.

The pressure of congressional business, May said, prevents him from testifying tomorrow in the committee's probe of war contracts. May is head of the House conferees on atomic energy control legislation, and they are scheduled to meet tomorrow.

May made the announcement of his intentions in a statement issued to reporters.

"Arrangements for my appearance without conflicting with my imperative legislative duties, and at the convenience of the committee, are now under discussion," May said. "When the day and time shall have been determined, the press will be notified promptly."

Delay Necessary

"Due to press of constant legislative duties, particularly those in relation to the atomic energy control bill, I will not be able to appear before the committee on Tuesday, though there is no disposition on my part to unduly delay my appearance pursuant to the committee's subpoena, and I feel I will be able to make this appearance at an early date."

"There is not and never has been an iota of doubt about my desireing an opportunity to fully reply to innuendos, insinuations, deductions, and the like which have resulted from the hearings before the Mead committee. My willingness to appear was clearly stated in my letter of July 13, in which, as in my letter of July 12, I asked to be granted an opportunity to cross-examine present witnesses and to have produced documents to be designated. There is established precedent for this in recent hearings incident to the Pearl Harbor inquiry, when the committee extended to witnesses privileges of the character that I have asked for myself, the right to cross-examine, to bring witnesses, and have designated documents produced."

To Recall Freeman

The Senate investigators announced that Joseph Freeman, agent for a midwestern munitions combine, will be recalled tomorrow for questioning about reports he sought to influence another witness.

Camp Shanks A Ghost Town

CAMP SHANKS, July 22.—(P)—This huge staging area from which more than 1,300,000 doughboys were cleared for overseas duty since it opened January 4, 1943, becomes a ghost town today with the departure of 1,355 German prisoners for home.

During its operations 300,000 German prisoners of war came to Shanks and either were stationed here or sent to prison camps.

It will be the last group of German prisoners of war to leave the country, following yesterday's shipment of 1,345 former Nazi soldiers.

But to many Americans, Shanks was the final stop before going to combat areas. And to many others it marked the end of the war.

Two years after Shanks was opened it was shipping out 70,000 men a month. Only last October 90,000 men a month were clearing for return to civilian life.

Parts of the installations are being demolished, while others are being reconverted into homes for discharged servicemen.

Boost to Unify Armed Forces

WASHINGTON, June 22.—(P)—President Truman's proposal to unify the armed forces under a single cabinet officer received a belated boost today from the civilian-directed United States strategic bombing survey. It was based on a detailed study of the conduct of the war in the Pacific.

Japan's lack of coordination at top levels contributed substantially to her disastrous decision to embark on a career of conquest and to ultimate defeat, the survey group found.

Its findings and recommendations were contained in a bulky report released without comment by the White House after the administration dropped its fight for action on the merger at this session of congress. Chairman Thomas (Utah) of the senate military committee, said however, he will introduce a new unification measure at the next session.

Cars in Wreck at Broadway and Grand

Top: 1941 Cadillac sedan of David Roberts, which was in an accident at Broadway and Grand avenue, about 1 o'clock Sunday morning, in which a 1935 Ford coach driven by Armand J. Weaver, 612 West Fifth street, also figured. The Ford coach is shown at the bottom. The Cadillac sedan was driven by Harold Roberts, son of Mr. and Mrs. Roberts and was going west on Broadway, while the Ford, it was said, was headed north off of Grand avenue. Other reports given police were both cars were going west and the Ford endeavored to pass the larger automobile. Miss Wanda Brown, 908 South Vermont avenue, a passenger in the Weaver car, received minor cuts and abrasions. Harold Roberts received an injury to his left ankle and heel. (Photos by Chris Rau)

Nurses Would Return Here to Live if Homes Could be Found

Sedalia's Bothwell Memorial hospital, like many other hospitals in the country, is full and Sedalia, like other cities, is badly in need of more nurses.

Sunday there were 73 patients in the hospital at 7:30 o'clock in the morning, not including 22 babies in the nursery.

Some were dismissed, others were admitted during the day. Six operations were scheduled for this morning.

Miss Beth DeWar, superintendent of nurses, when questioned relative to the number of nurses reported there are 12 graduate registered nurses on the staff and 23 nurse helpers. Each works an eight hours shift, which means there is a limited number on duty to care for so many patients.

Need More Nurses
Every effort is being made to employ more graduate nurses, but the housing situation is proving a hindrance.

At the present time Mrs. Helen Benson McGinnis, who formerly was employed at the hospital, is here on vacation from Newton, Kas., and would remain if she could find living quarters for herself and 13 year old daughter Martha. Mr. McGinnis died about a year and a half ago and Mrs. McGinnis states she would be very happy to return to Sedalia to reside and place her daughter in school, but unless she finds a place within the next few days, she must leave.

Would Like to Return

Likewise a former nurse here, Mrs. Esther Dancer, residing in North Dakota, now in Sedalia on private case at the hospital, would like to return to Sedalia with her two sons, it living quarters could be found.

Free Political Prisoners

First official act of the revolutionary regime, which calls itself the "institutional government," was to issue a communiqué calling for national unity and restoration of "popular liberties," which were suspended under Villarreal's "strong man" rule.

The communiqué also said that all political prisoners would be freed and that all political exiles would be welcomed back to Bolivia to "collaborate in the restoration of democratic liberties and guarantees."

The current resolution began on July 13 when a student was killed during a demonstration in support of teachers' demands for higher pay. The government then prohibited all demonstrations and a general strike was called in protest of this action.

Farmers may become eligible for payments from the fund by adopting soil and water conservation practices recommended by State AAA farmer committees, technical experts of the department, and by local farmer committees.

These practices include: (1) Application of lime, fertilizers and other materials; (2) Planting of cover crops on land which tends to erode; (3) Harvesting of certain legumes and grass seeds; (4) Measures for controlling erosion and water conservation; (5) Forestry improvement, and (6) Measures for control of weeds and clearance of land for plowing and pasture.

The department said more than 4,000 farms are participating in a similar program this year.

None of the money will be used to pay farmers either to restrict or expand their production or crops.

Hughes Rests Comfortably

LOS ANGELES, July 22.—(P)—Plane and Movie Maker Howard Hughes was "resting comfortably" today at Good Samaritan hospital following removal of a second quart of fluid last night from his left lung, battered when Hughes crashed in an experimental plane July 7. His physician yesterday reported "noticeable improvement."

Stacks Hay On His 100th Birthday

BRAintree, Mass., July 22.—(P)—Abel H. Thayer, a retired shoemaker, observed his 100th birthday today by finishing stacking of a five-ton load of hay in his barn. Asked to what he contributed his longevity he smilingly replied: "I've been a bachelor all my life."

Hurl Boos at Drew Pearson

ATLANTA, July 22.—(P)—Intermittent boos were hurled at Drew Pearson, syndicated Washington columnist, during an anti-Klan speech here yesterday.

The columnist said that "history will ridicule and despise the fiery cross on Stone Mountain, because the fiery cross breaks faith with the cross of Cavalry."

Stone Mountain near here is the birthplace of the modern Klan and the Klan has frequently burned giant crosses on the huge piece of exposed granite.

He was introduced by Gov. El-

lis Arnall, whose legal department has filed suit here to revoke the Klan's charter in Georgia.

The columnist said that "history will ridicule and despise the fiery cross on Stone Mountain,

because the fiery cross breaks

faith with the cross of Cavalry."

Pearson spoke on the steps of the Georgia capitol and his speech was broadcast over a national radio hook-up (ABC). A crowd estimated at 2,000 assembled to hear the critic of the hooded orator lambast the Klan.

Its findings and recommendations were contained in a bulky report released without comment by the White House after the administration dropped its fight for action on the merger at this session of congress. Chairman Thomas (Utah) of the senate military committee, said however, he will introduce a new unification measure at the next session.

President Of Bolivia Is Hanged

Revolutionary Leaders Seize Government After Four-Day Uprising

LA PAZ, Bolivia, July 22.—(P)—Revolutionary leaders promised immediate restoration of civil liberties today after seizing the government in a bloody four-day uprising climaxed by the assassination yesterday of President Gualberto Villarroel.

Patrolmen said the girl's father, who asked the search, and Davis are both with a carnival now playing at Louisville. The man was last seen in Louisville shortly after 11 o'clock last night.

Davis is described as being 45 years old, 5 feet, 10 inches tall and weighing 150 pounds, and he is driving a 1942 two-tone gray Buick sedan with Indiana license plates.

JERUSALEM, July 22—An armed band destroyed the greater part of the luxurious King David hotel today, bombing out British army and Palestine government offices there and killing 50 or more persons in an explosion that shook the modern part of Jerusalem.

A Palestine police communiqué blamed the attack on "Jewish terrorists."

The secretariat of the Palestine government was hard hit and many of the victims were its employees and visitors. Headquar-

ters of the British army apparently was less seriously damaged since the military was on the upper floors. The blast, however, ripped the 250-room hotel—largest in Palestine—from bottom to top.

The attack came 23 days after the British army occupied the Jewish agency and arrested 2,000 Jews and leaders. A police communiqué gave the estimate of dead. Among the 60 reported officially as injured was an American, Correspondent Richard Mowrer of the New York Post, who was reported to have suffered a broken leg while walking past the hotel.

No date was set for publication of the document but it was expected to be issued almost immediately to allow debate before parliament's recess August 1.

KANSAS CITY, July 22.—(P)—The local office of the Federal Bureau of Investigation reported today that two men, believed to have robbed the Bank of Humansville, Mo., had been killed by Sheriff Logan Perry South of Osceola.

Dwight Brantley, agent in charge, said he had no details of the shooting.

The FBI's information was that two men entered the bank about 1:20 p. m. and ordered the three bank employees and customers to lay down on the floor.

One of the men remained by the door, while the other leaped over the railing and went behind the teller's case where he scooped the contents of the cash drawer into a sack.

JEFFERSON CITY, July 22.—(P)—The Missouri State Highway Patrol reported that St. Claire County Sheriff Logan Perry shot and killed two men south of Osceola at 2 p. m. today.

The FBI's information was that two men entered the bank about 1:20 p. m. and held up Cashier O. E. Simms and fled with an undetermined amount of money. Simms, the FBI said, estimated the amount was less than \$1,000.

The new government is composed of university professors and students, labor union groups and several prominent figures including the deal of La Paz supreme court.

Effects of Bomb On Animals

The communiqué also said that all political prisoners would be freed and that all political exiles would be welcomed back to Bolivia to "collaborate in the restoration of democratic liberties and guarantees."

The current resolution began on July 13 when a student was killed during a demonstration in support of teachers' demands for higher pay. The government then prohibited all demonstrations and a general strike was called in protest of this action.

Farmers may become eligible for payments from the fund by adopting soil and water conservation practices recommended by State AAA farmer committees, technical experts of the department, and by local farmer committees.

The department said more than 4,000 farms are participating in a similar program this year.

None of the money will be used to pay farmers either to restrict or expand their production or crops.

Prominent Lutheran Dies

ST. LOUIS, July 22.—(P)—Frank A. Nagel, 69, office manager of the Lutheran church's Concordia publishing house, died last night in Lutheran hospital.

He suffered a heart attack at his home Saturday. His wife, a son and four daughters survive. Funeral services will be Wednesday.

Two Drown in River

ADVANCE, Mo., July 22.—(P)—John Winkler, 21, and his father-in-law, Maurice C. Proffer, 43, who went to Winkler's rescue, both drowned in the Castor river yesterday. Friends said Winkler apparently tired while swimming and Proffer tried to save him. Both were farmers.

Leonard Wayne Hisenhan, son of Mr. and Mrs. Lester Rosenblatt, 1700 South Moniteau avenue, admitted for medical treatment.

Mrs. J. W. Newland and son, Route 5, Sedalia and Ralph Scheckhoff, Cole Camp, dismissed.

Long Time No See

CHERRY, Ill., July 22.—(P)—Swimming in Neill's creek recently, Dick Lord caught a turtle which had Dick's name carved on its back and the year Dick put it there—1924.

Stone Mountain near here is the birthplace of the modern Klan and the Klan has frequently burned giant crosses on the huge piece of exposed granite.

Its findings and recommendations were contained in a bulky report released without comment by the White House after the administration dropped its fight for action on the merger at this session of congress. Chairman Thomas (Utah) of the senate military committee, said however, he will introduce a new unification measure at the next session.

Japan's lack of coordination at top levels contributed substantially to her disastrous decision to embark on a career of conquest and to ultimate defeat, the survey group found.

Ramblers Into Finals Against Burnett Meat In Semi-Pro Tourney

Bus Walker Pitches First Perfect Game

Beats A. G. Thomas
Motors of Marshall
In Afternoon and
Moberly at Night

The Sedalia Ramblers go into the finals of the Missouri State Semi-Pro tournament to meet the Burnett Meat Co., of Kansas City on Saturday night, July 28, because they won both their games, Sunday. Bus Walker, known now as "Iron Man" had a perfect game credited to him in his victory over the A. G. Thomas Ford Motor Co., of Marshall then came back in the night contest as a relief pitcher, to beat the Moberly Veterans of Foreign Wars.

In the afternoon twenty-seven Marshall batters faced the twenty-three year old pitcher, and all went down one, two and three. Not a hit was made off of Walker nor did a man reach first base. It is a record which it was said stands with only four such games in the American League and none in the National League. It is the first time in the history of Liberty Park baseball diamond that this record was ever accomplished.

Credit To Team Mates

Not all the credit goes to Walker for the record. He had some of the best support any pitcher has had on the diamond from his team mates. The fellow players all worked hard to keep the game on ice and a mere bobble would have ruined something accomplished by few pitchers "once in a lifetime."

Walker is a graduate from the Junior American Legion team of the Pettis County Post No. 16 and Sunday he had his old Junior Legion battery mate behind the plate, Elwood McMackin, and both boys were gone through their baseball career in Sedalia together. Both are veterans of World War II. McMackin having overseas service in the Pacific while Walker was with the Air Corps in Canada.

As far as records could be checked, no such game has been pitched in any Missouri State tournament, and an effort is being made to ascertain if any has ever been pitched in any Semi-Pro tournament either state or national.

Ramblers Beat Moberly

It was a hectic game Sunday night. The Ramblers opened the game in the home half scoring a run, and by the time the seventh inning had passed they had an 8 to 5 lead. In the top half of the eighth, the Veterans from Moberly went to work and tied up the score.

"Skinny" White started the game, was relieved in the fourth by Paul Evans who pitched until the eighth when Walker was put into the game. Walker opened the eighth, the Veterans from Moberly and the game tied up. From then until the twelfth, it was a battle of teams, pitchers and batters.

In the third inning Evans walked, went to second on an error on Johnson. In a throw to second

'Old Timers' Meet at Tournament

Elmer Dillard, extreme right, former star pitcher for the old Sedalia Athletics went down into the Burnett Meat Co. dugout last Saturday night to shake hands with his old friend teammate and rival, Roy Sanders who manages the Burnett team. They played with each other and also pitched against each other on the Liberty Park diamond some 20 years ago. In the picture from left to right are the owners of the Burnett Meat Co., Kansas City, Bill Burnett, his brother Louis Burnett, Manager Roy Sanders and Dillard. Meat Co. ball players stand behind the group. Incidentally in their game Saturday night at which the "bosses" were in attendance, Burnett beat Moberly 5 to 1. (Democrat-Capital Staff Photo).

Hits—Off True 10 for 15 runs; off White 3 for 3; off Evans 3 for 2; off Walker 2. Passed ball—True 2, White 1. Winning pitcher—Walker. Losing pitcher—True. Umpires—Jackson and O'Keefe.

base the ball hit Evans on top of the head and went into left field. He started running and didn't stop until he scored.

It was the twelfth inning after one run had scored, Jacobs, Moberly centerfielder had reached third base. A discussion arose, and in the meantime, Taylor, Ramblers third baseman got the ball. A. C. Linker was on first, and another run was set to score. As Walker walked toward the mound, Jacobs stepped off the bag and Taylor tagged him for the third out. It was the old hidden ball trick.

The last of the twelfth came up with the Ramblers starting off with a bang. McMackin got a safety to right field, Walker singled to center; Michaelis dropped a hit behind second base loading the bases. White was out on a fielders choice, McMackin being caught at the plate. C. Thompson came to bat and hit a double to right field and Walker and Michaelis scored the tying and winning runs to end the ball game.

Paul Evans in this game not only played shortstop, pitched and back to shortstop, but was at bat five times, got three hits and scored four runs.

Ready For Burnett Meat Co.

After the game it wasn't just Manager Jake Summers, but the whole team which expressed themselves as being ready to meet the Burnett Meat Co. "With a week of rest we should be able to beat Burnett," Summers said.

Sedalia fans could be heard for blocks and blocks from Liberty Park cheering the team on.

Warrensburg Meets Eagles

Junior Legion Games Begin Tuesday

KANSAS CITY, July 22—(P)—The annual battle for the Missouri American Legion Junior Baseball title begins here tomorrow at Blues Stadium.

District champions from Farmington, St. Louis, St. Joseph, Jefferson City, Brookfield, Springfield, Sedalia and Kansas City will contend for the title in the five-day double elimination affair. Drawings for first round games will be made tonight.

Four games will be played on Tuesday and Wednesday; three Thursday, two Friday and the finals on Saturday.

Nelson Set for Leadership

CHICAGO, July 22—(P)—Byron Nelson, golfer's golden boy today was poised to grab the 1946 cash-collecting leadership in the \$50,000 all-American tournament at Tam O'Shanter.

Nelson primed for a crack at the \$50,000 first prize offered in George S. May's all-American by roaring from behind to cap the \$10,000 Chicago Victory National Open yesterday with a five-up par 279.

Harold McSpaden from Sanford Me., finished with 281, taking runnerup honors to Nelson for the second straight year.

Other winners in the event which attracted 194 entries from seven states included: Mrs. Naomi Griffin, Kansas City, Kas., longest flight for a model entered by a woman; Donald Griffin, Kansas City, Kas., class C open; William Kempton, St. Joseph, rubber powered Juniors and Class B gasoline powered Juniors; Robt. Cook, Kansas City, Mo., class A junior; Donald Gibson, St. Joseph, class A senior; A. S. Serraf, Brookfield, Mo., class B senior.

McMackin was being caught at the plate. C. Thompson came to bat and hit a double to right field and Walker and Michaelis scored the tying and winning runs to end the ball game.

NEW HEARING AID SMALLER, LIGHTER

Beltone, America's smallest one-unit hearing aid, is proud to announce the new Harmony Mono-Pac, weighing slightly more than 6 oz., and hardly larger than a deck of cards.

Acclaimed as one of the most powerful hearing aids on the market, it can be completely hidden under the clothing, with just one thin wire to the receiver in the ear.

Combining batteries and transmitter in one tiny package, the aid brings group conversations, church sermons and even whispers to those who despaired of finding a hearing aid small enough to be concealed, yet powerful enough to bring clear, normal sound.

Write Beltone, 1001-A Grand Ave., Dept. A-5, Kansas City 6, Mo., for free information or a home demonstration without risk.

Complete Plan For Bomb Test Tuesday

Target Submarines Will be Submerged In Bikini Lagoon

By Elton Fay

ABOARD USS MT. MCKINLEY, July 22—(P)—Preparations for the underwater test of the atomic bomb will be completed tomorrow (Monday, U. S. Time) when target submarines are submerged in Bikini lagoon and an electronics rehearsal is staged.

As preparations went ahead, Vice Adm. W. H. P. Blandy, atom test commander, observed that the bursting of the world's fifth atomic bomb might be delayed at least a week because of adverse weather.

Blandy added, however, that meteorologists hoped a high pressure area would shove an intertropical front southward and bring clear weather to the area.

The test now is scheduled for Thursday morning, Bikini Time (Wednesday afternoon, U. S. Time).

Six submarines will be submerged tomorrow at a depth of 60 feet. Actual submerging operations began today but it will take until tomorrow to complete.

Two other submarines—the bomb-battered Skate and the Parche—will be anchored on the surface.

Little Chance to Survive

Sub commanders agreed that the submerged craft will stand little chance of surviving the terrific underwater blast, since they will be closest to the center of detonation.

Heavy hulled submarines, besides the Skate and Parche, are the Dentuda, Pilotfish and Apogon. Light hull craft include the Skipjack, Tuna and Saravene.

Concrete blocks, anchored by bridles fore and aft, will hold the submarines at the desired depth. The boats can be raised by pumping air into them.

The electronics rehearsal is routine.

Blandy warned again today that damage to ships in the forthcoming test will be "unspectacular" and not so impressive to the lay observer as were the battered and burning ships in the lagoon after the aerial explosion July 1.

The air burst damaged ships' superstructure while damage done in the second test will be under water.

Roy S. Kemper Rotary Club Guest Speaker

(Continued From Page One)

Introduced by Smith

Mr. Kemper was introduced by W. D. Smith, former Secretary of the fair, who gave a brief history of the fair and its growth. "The Missouri State Fair was created by the General Assembly in 1901," Mr. Smith said, "by a bill introduced by H. B. Bothwell, Representative of Pettis county. The bill carried an appropriation of \$75,000. The management provided for a State fair board consisting of one member from each congressional district. The board was appointed by the governor and was non-partisan. They selected their secretary and manager. The first secretary was J. R. Rippey, who served approximately seven years.

The meeting was presided over by J. U. Morris, president of the club, with Oscar Dewolf program chairman.

Explained Challenge

Mr. Morris explained the challenge made by the Sedalia Rotary club to the 134th district, which was that each member of the club purchase one bushel of wheat for foreign relief. The motion was made and carried that the club furnish \$2.00 per member for this relief.

Ed Edwards, chairman of the attendance committee, discussed the attendance.

A petition was circulated by Dr. Lawrence Geiger, which read as follows: "We, the undersigned individual members of the Sedalia Rotary club, hereby endorse the project sponsored by the Teen Age Point, Wis.

John Rosenhan, AMM 2/c, is the guest of his granddaughter, Mrs. Anna Rosenhan. He will leave in the near future to attend school in Chicago.

Ed Kerr has returned to his duties as clerk at the Governor Hotel in Jefferson City after a vacation spent with his mother, Mrs. Rosa Kerr.

Mr. and Mrs. Joe Knipp are the parents of a son, John Francis, weighing 5 pounds, 2 ounces, born July 16 at the Bonneville hospital.

Mr. and Mrs. O. J. Stratman have as their guests Mrs. G. L. Donahue and son, Jimmy of Spud. Mrs. Donahue is the former superintendent of the Tipton schools.

Mrs. Ira Grubb was hostess to her bridge club recently. Mrs. L. Billingsley and Mrs. Ruth Harms were prize winners. A dessert luncheon was served.

Mr. and Mrs. Jack Needy and children, Jack and Betty Ann, Mrs. Needy's mother, Mrs. Leona Hurt of Sedalia, Glenn Dohl and Bobby Miller motored to St. Louis recently to attend the ball game.

Mr. and Mrs. Roy Arnold had as their guests recently Mrs. F. H. Patterson and daughter, Ingrid of Monroe, La.

Mrs. William Michaelis attended a conference of Officers of Children's Work at Montserrat Camp recently.

Mrs. Eugene Goodman, who has been the girl of her parents, Mr. and Mrs. D. C. Hardy, has been to Guthrie, Okla., to be the guest of her parents-in-law, Mr. and Mrs. O. H. Goodman.

Richard Hume, son of Dr. and Mrs. H. C. Hume, is spending two weeks with his grandparents, Mr. and Mrs. C. W. Hume, in Humboldt, Kas.

Mr. and Mrs. E. A. Norman attended the golden wedding celebration of Mr. Norman's uncle, Mr. and Mrs. George Bailey, in California recently.

The Win Ones enjoyed a pleasant summer meeting at the home of Mrs. Jim Lachner, whose daughter, Mrs. Gene Edwards was assistant hostess. Mrs. Jim Briscoe, the president, heard the business meeting. Mrs. John T. Ricketts used as her subject, "The Temple." Mrs. A. R. Snorgrass gave the devotional. A dessert luncheon was served.

Mrs. Ethel Hays, who has been a patient in St. Luke's hospital in Kansas City was brought to her home recently. Her daughter, Mrs. Charles Longan, who is in the same hospital for a thyroid operation was unable to return home.

Miss Lily Jahn, Mrs. Mary Glass, Mrs. Minnie Fible, Mr. and Mrs. George Glass and three children, Bud Chaney and J. W. Jones attended the Gibson-Fowler reunion held annually at Boonville recently.

Mrs. Leroy Wehmeier and little daughter, left recently for their home in Sacramento, Calif., after spending three months with her parents, Mr. and Mrs. Asa Henry.

Mr. and Mrs. F. C. Swarner had as their guests Mr. Swarner's sister, Mrs. Bell White of Independence.

Mrs. Elizabeth Knipp returned to St. Louis recently to be the guest of her daughters and their families.

Urbans Home From New York

Mr. and Mrs. Carl Urban, daughter, Betty, and son, Frank, 1507 East Seventh street, have returned home from a seventeen day trip. They went first to New York City, where Mr. Urban was a delegate to the Elks' national convention. While there they also visited with Wilson Hicks, a former Sedalian, who is executive editor of Life magazine. Mr. Hicks and Mr. Urban were former neighbors in Sedalia.

From New York the Urban family went to Connecticut, Philadelphia, Valley Forge, and then to York, Pa., where they were guests of Mr. and Mrs. Phil Wallach. Miss Betty Urban remained in New York for a month's visit and the rest of the family continued on their trip to Gettysburg, Washington, D. C., Alexandria, Va., Mount Vernon, down the Skyline drive through Virginia, northwest across the Allegheny mountains, to Cincinnati and then back home.

Briggs Swings Into a Fast Campaign

JEFFERSON CITY, July 22—(P)—Sen. Frank P. Briggs swings into a fast campaign tour of 25 counties tomorrow as he opens the final two weeks of his drive for renomination on the Democratic ticket.

The Macon newspaperman conferred with his headquarters staff here this morning then headed for a conference at St. Louis with Sam Priest, his campaign manager.

Starting tomorrow his itinerary calls for this packed schedule, climaxed with a final speech at Columbia on election eve:

Tuesday—Mexico, Centralia, Milan (night); Wednesday—McArdle, Keytesville, Brunswick, Salisbury, Glasgow, Slater, Marshall (night); Thursday—Wauconsburg, Holden, Leetown, Wintersburg, Clinton (night); Friday—Parkville, Platte City, Smithville, Richmond, Excelsior Springs (night); Saturday—Ewing picnic (Lewis county).

Monday and Tuesday, July 29 and 30—St. Louis; Wednesday, July 31—St. Louis, Palmyra (night); Thursday, August 1—Monroe City, Shelbia, Shelbyville, Clarence, Moberly (night); Friday, August 2—Albany, Standard, Conception Junction, Maryville (night); Saturday, August 3—picnics at Agency, Liberty, Corner (night); Sunday, August 4—Catholic picnic at Cameron.

Monday, August 5—Armstrong, Fayette, New Franklin, Bonnville, Columbia (night).

Community News From Tipton

Mrs. A. R. Snorgrass

Arthur Schmidt is spending a furlough at home with his parents, Mr. and Mrs. A. C. Schmidt. He is stationed at Camp Lee, Virginia.

Mr. and Mrs. Floyd Turpin and family and Mrs. George Pedigo motored to Sedalia for a day's vacation recently.

Dr. and Mrs. H. P. Stoner and small daughter, Susen, have returned from a visit with Mrs. Stoner's parents, Mr. and Mrs. Alphonse Gevelinger of Mineral Point, Wis.

John Rosenhan, AMM 2/c, is the guest of his granddaughter, Mrs. Anna Rosenhan. He will leave in the near future to attend school in Chicago.

Ed Kerr has returned to his duties as clerk at the Governor Hotel in Jefferson City after a vacation spent with his mother, Mrs. Rosa Kerr.

Busy Session In Court This Morning

Many Are Fined, Some Went to The City Jail

Police court was the scene of a busy session this morning as local authorities assessed fines and jail sentences. The proceedings were as follows:

James Kiper, Sr., 1410 East Third street, arrested for drunkenness and fighting, was fined \$5; Edward Parker, charged with intoxication and resisting arrest, paid a \$25 fine; Orville Stout, 1714 South Prospect avenue, paid a \$10 fine for fighting and disturbing the peace; G. B. Hill, unable to pay a \$10 fine assessed for drunkenness, was jailed; O. A. Thomas, 1417 South Sneed avenue, arrested for intoxication, forfeited a \$10 cash bond; Finis White was fined \$5 for drunkenness.

Mr. and Mrs. Jacob Tolk and daughter, Ginger, of Chicago, are visiting Mrs. Tolk's parents, Mr. and Mrs. R. C. Ardinger, of Nelson.

Kenneth Hunt, 1405 West Third street, has gone to Texas where he will visit his brother and wife Mr. and Mrs. Wallace Hunt in Dallas, his uncle and aunt Mr. and Mrs. James H. Biddison in Corpus Christi and Jim Miller, a former Sedalian, in Houston.

Miss Pearl Tongate and Miss Lillian Tongate, 1100 West Fourth street, returned Sunday from Kansas City, where they spent a week with their sister, Mrs. Paul A. Buzzard and family.

Mrs. Earl Swegle, who has been visiting her mother, Mrs. James D. Hayes, 810 East Fifteenth street, during the latter's illness, returned to her home in St. Louis today.

Mrs. Stanley Miller and children, Jackie and Barbara, arrived from Cheyenne, Wyo., today to join their husband and father at the Bothwell hotel. Mr. Miller is a traveling radio tower foreman.

Mrs. Jack Ferrell, Beaumont, Kas., and daughters, Eleanor, Patsy Sue and Elizabeth Ann, arrived Saturday to visit Mrs. Charles Kahrs, Route 5, Sedalia, and to attend the wedding of Patricia Peithman of Knob Noster this week.

Mrs. M. T. Dingess has returned to her home in Atchison, Kas., after visiting her daughter, Mrs. John G. Crawford, and Mr. Crawford, 1321 West Broadway.

Mr. and Mrs. H. C. Johnson, 311 West Fifth, have returned from a two weeks trip in the Bad Lands, Black Hills, and Yellowstone Park. They were accompanied by Mrs. Johnson's brother, O. A. Graves, and Mrs. Graves, Denver, Colo.

Mr. and Mrs. G. S. Graves, 311 East Fifth, and Delbert Melendy, of Smithton, have returned from Chesaning, Mich., where they were called by the illness of Mrs. Graves' sister, Mrs. W. Melendy.

Mr. and Mrs. W. J. Glenn and children, Karl and Karen, of Raytown, were week-end guests of Mrs. Glenn's mother, Mrs. J. C. Perrot, and Mr. Perrot, 530 East Fifth street.

Mr. and Mrs. Delbert Melendy, 311 East Fifth, and Delbert Melendy, of Smithton, have returned from Chesaning, Mich., where they were called by the illness of Mrs. Graves' sister, Mrs. W. Melendy.

Mr. and Mrs. W. J. Glenn and children, Karl and Karen, of Raytown, were week-end guests of Mrs. Glenn's mother, Mrs. J. C. Perrot, and Mr. Perrot, 530 East Fifth street.

Mr. and Mrs. Larry Silvert, 304 West Third street, have as guests today Mrs. Silvert's brother and wife, Mr. and Mrs. H. E. Barrett, of Jacksonville, Fla. Mr. and Mrs. Barrett are en route to Colorado Springs, Colo.

Miss Virginia Pinkepank, 1902 East Broadway, has returned to her duties at Zurcher's Jewelers, 225 South Ohio avenue, after her vacation. In company with Miss Ruth Lower and Mrs. George Aruckle, she went to Kansas City Wednesday.

Mrs. W. H. Nave, Miss Anna Meier and niece, Jean Marie Meier, have returned from a week end visit with their sister and aunt, Mrs. O. Piotrowski, of Redfield, Kas., who has been seriously ill.

Mrs. Marie Pauley, 612 South Lammine avenue, has as her guests Mr. and Mrs. Ben Bristow of Monterey Park, Calif., and Mrs. J. W. Boland, Phoenix, Ariz. Mrs. Bristow and Mrs. Boland are sisters of Mrs. Pauley.

Mr. and Mrs. Eugene Herrick and children, Mary Kay and Dickey, accompanied by Mr. and Mrs. Thomas Bell, spent the week end in Kansas City, the former family the guests of Mr. and Mrs. Raymond Gerard and family and the latter as guests of Miss Ellen Bell and other relatives and friends.

The boy was at the Frisbie home and was handling a shotgun, which was fired and the load struck Miss Frisbie killing her. The shooting at the time was said to have been accidental.

The boy was set by Judge D. M. Hoffman, judge of the juvenile court.

Wayne Bryant, 14 years old, arrested on a charge of manslaughter in accordance with an information filed in juvenile court, has been released on a \$500 bond signed by Ed. Butterbaugh and a brother of the boy.

The information charges him with manslaughter in connection with the death of Alice Margaret Frisbie, 17-year-old daughter of Mr. and Mrs. J. W. Frisbie, living in the same neighborhood with the Bryant family.

Mrs. W. H. Nave, Miss Anna Meier and niece, Jean Marie Meier, have returned from a week end visit with their sister and aunt, Mrs. O. Piotrowski, of Redfield, Kas., who has been seriously ill.

Mrs. Marie Pauley, 612 South Lammine avenue, has as her guests Mr. and Mrs. Ben Bristow of Monterey Park, Calif., and Mrs. J. W. Boland, Phoenix, Ariz. Mrs. Bristow and Mrs. Boland are sisters of Mrs. Pauley.

They are B. Marvin Castle, candidate for the U. S. Senate, and Ike Shelton, Lexington, candidate for representatives from the second district.

Robert Rowland, commander of the local Legion Post, said he expected about 500 Legionnaires to attend.

Inactive in politics for years, she came out of semi-retirement to urge immediate establishment of a coalition government in the country now headed by her brother-in-law and to appeal to the United States to foster such a move by cutting off all military supplies to China.

Achievement Day of 4-H Clubs Be Held At Liberty Park, Aug. 1

Many Contests, Displays And A Dress Revue To Be Featured

Pettis County 4-H club Achievement Day will be held at Convention Hall, Liberty Park on Thursday, August 1.

Achievement Day, the climax of 4-H club project work, gives 4-H club members an opportunity to exhibit some of the things they have made and grown throughout the year and also gives them an opportunity to participate in judging and grooming contests, in a dress revue (for girls) and in an individual or team demonstration.

4-H club members who plan to exhibit at Achievement Day are asked to have their exhibits in place at Convention Hall by 8 o'clock the morning of August 1. There will be classes for exhibits in clothing, food preparation, food preservation, home service, home furnishings, farm handicraft (ropework and woodwork), farm electricity, home grounds, and gardening projects.

Following the registration and instructions for demonstrations and contests will be the judging contests. There will be judging in woodworking, vegetable, home furnishings, clothing, food preservation, and food preparation.

High Rank To Eldon Leiter

Eldon Leiter, South Abell 4-H club member from Pettis county was the high ranking individual in the judging event and the winner of the purebred Hampshire spring gilt given by Mr. Mathew.

Ninety-four percent of our farm homes are now equipped with bathtubs and only 4% have inside toilets. There is a big job ahead in improving our farm homes and the production of the farm must pay for the improvements.

The farmer who carries out a "Balanced Farm System", will be in the best position to make these improvements.

Charles Schaeffer, a Lafayette county farmer affords good illustration of increased efficiency through the use of a balanced farm plan. In the 4 year period of 1938-41 he increased his live-

stock carrying capacity from 15 Hereford cows to 40 and his net cash income from \$1150.00 to \$2240.00.

The program will last from 2 to 4 p. m. that day. It will include two outside persons, C. R. Meeker, extension specialist in Farm Management and Madonna Fitzgerald extension specialist in Home Management. The date is Wednesday, July 31. The detailed program will appear in next week's paper.

This is not a new program since agents have assisted nearly 4,000 farmers of the state in drawing up such plans in the last 10 years.

However additional funds and personnel has made it possible to greatly speed up the work this year. Applications on file in the Pettis county extension office for assistance in drawing up such plans now total 46. Of this number 30 farms have already been visited, 19 have definite plans started and 16 have already completed some work such as terrace outlets, contour lines, replanning and landscaping the farmstead or providing clean ground for the baby chicks.

Development of a balanced farm plan involves balancing all the factors which enter into the individual farm business and making the optimum use of all of them. On development of the balanced farm plan, ordinarily the direct step is to balance the kind of crops grown with the capacity of the land to produce the crop without soil loss. Usually that involves a water management program including terracing, contouring ponds and terrace outlets.

Work In Terracing

A highlight of the meeting at the Runge farm will be the opportunity to see two outlets, one recently completed and the other in the process of construction. This work will be done by Arnold Fischer, local terracing contractor.

Since the Runge's plan has just been developed this year, no results can be observed. However the water management system will be discussed, as will the crop rotation and the method of handling livestock and poultry. Main enterprises will include beef cattle, hogs, sheep, and poultry and the crops necessary to provide adequate feed and pasture.

Some time will be spent on farmstead arrangement as the Runge's plan to build a new poultry house, dig a deep well and relocate their garage and garden.

Mrs. Runge has also been assisted with remodeling plans for the home, because there must also be a balance between farming and living. Balanced farming is merely a means to an end of providing an opportunity for families to live a full and satisfactory life and to develop in rural boys and girls, tomorrow's citizens who will be leaders in industry and agriculture.

George Jones, Extension Entomologist from the University of Missouri, College of Agriculture will conduct the demonstrations, spray the livestock, barns, and other farm buildings and answer any questions regarding the use of DDT in farming or household operations.

DDT is not a cure-all but is effective against a large number of livestock, garden and household pests. There are, however, certain precautions which must be followed with its use in order to

be effective.

Mrs. Runge has also been assisted with remodeling plans for the home, because there must also be a balance between farming and living. Balanced farming is merely a means to an end of providing an opportunity for families to live a full and satisfactory life and to develop in rural boys and girls, tomorrow's citizens who will be leaders in industry and agriculture.

Actually while 55% of the farm homes of the state have radios, only 13% have electricity. Five percent have running water in the house and another 5 percent have pumps located in the kitchen. Two percent of the families must carry water for 50 feet or more to the house. It is no wonder that the homemaker in many farms is overworked when she has to walk 10 miles each month carrying

water in and out of the house in addition to all her other work.

Ninety-four percent of our farm homes are now equipped with bathtubs and only 4% have inside toilets. There is a big job ahead in improving our farm homes and the production of the farm must pay for the improvements.

The farmer who carries out a "Balanced Farm System", will be in the best position to make these improvements.

Usually that involves a water management program including terracing, contouring ponds and terrace outlets.

Work In Terracing

A highlight of the meeting at the Runge farm will be the opportunity to see two outlets, one recently completed and the other in the process of construction. This work will be done by Arnold Fischer, local terracing contractor.

Since the Runge's plan has just been developed this year, no results can be observed. However the water management system will be discussed, as will the crop rotation and the method of handling livestock and poultry. Main enterprises will include beef cattle, hogs, sheep, and poultry and the crops necessary to provide adequate feed and pasture.

Some time will be spent on farmstead arrangement as the Runge's plan to build a new poultry house, dig a deep well and relocate their garage and garden.

Mrs. Runge has also been assisted with remodeling plans for the home, because there must also be a balance between farming and living. Balanced farming is merely a means to an end of providing an opportunity for families to live a full and satisfactory life and to develop in rural boys and girls, tomorrow's citizens who will be leaders in industry and agriculture.

Actually while 55% of the farm homes of the state have radios, only 13% have electricity. Five percent have running water in the house and another 5 percent have pumps located in the kitchen. Two percent of the families must carry water for 50 feet or more to the house. It is no wonder that the homemaker in many farms is overworked when she has to walk 10 miles each month carrying

water in and out of the house in addition to all her other work.

Ninety-four percent of our farm homes are now equipped with bathtubs and only 4% have inside toilets. There is a big job ahead in improving our farm homes and the production of the farm must pay for the improvements.

The farmer who carries out a "Balanced Farm System", will be in the best position to make these improvements.

Charles Schaeffer, a Lafayette county farmer affords good illustration of increased efficiency through the use of a balanced farm plan. In the 4 year period of 1938-41 he increased his live-

stock carrying capacity from 15 Hereford cows to 40 and his net cash income from \$1150.00 to \$2240.00.

The program will last from 2 to 4 p. m. that day. It will include two outside persons, C. R. Meeker, extension specialist in Farm Management and Madonna Fitzgerald extension specialist in Home Management. The date is Wednesday, July 31. The detailed program will appear in next week's paper.

This is not a new program since agents have assisted nearly 4,000 farmers of the state in drawing up such plans in the last 10 years.

However additional funds and personnel has made it possible to greatly speed up the work this year. Applications on file in the Pettis county extension office for assistance in drawing up such plans now total 46. Of this number 30 farms have already been visited, 19 have definite plans started and 16 have already completed some work such as terrace outlets, contour lines, replanning and landscaping the farmstead or providing clean ground for the baby chicks.

Development of a balanced farm plan involves balancing all the factors which enter into the individual farm business and making the optimum use of all of them. On development of the balanced farm plan, ordinarily the direct step is to balance the kind of crops grown with the capacity of the land to produce the crop without soil loss. Usually that involves a water management program including terracing, contouring ponds and terrace outlets.

HOUSEPA

INDIVIDUAL

A pair of glasses properly fitted to your eyes—if, and when, you need them—will be just about the most individual thing you will ever have.

**Dr. Geo. T. Lively—Dr. Lawrence S. Geiger
OPTOMETRISTS**
Herbert A. Seifert, Optician
110 East Third St. Sedalia, Mo.

**The Daily Washington
Merry-Go-Round**

WASHINGTON, July 22—Patient Senator Alben Barkley of Kentucky hasn't blown off steam since he stamped the senate against FDR's veto of the last war tax bill. But at a luncheon the other day he indicated to friends that the pot again was beginning to boil.

In fact, Barkley stated categorically that he would resign if President Truman vetoed the present OPA bill.

He said he was tired of living on a treadmill, that the present OPA bill was the best he could get out of the senate, and if the president wouldn't accept it, he would resign as majority leader.

The serious and protracted illness of the senator's wife and the recent disclosure that his son was employed by the Erie Basin war profiteers have increased Barkley's already heavy burden.

Senate friends hope, however, that either the price-control problem will be ironed out or that Barkley will reconsider.

The Barkley conversation took place just prior to a luncheon commemorating the 200th anniversary of Princeton university, attended by Senators Alexander Smith of New Jersey and Joe Guffey of Pennsylvania, both Princeton men. Admiral Ernest King (Annapolis) and Senator Barkley (Emory College, Ga.) though not Princeton grads, were also present.

New Deal Lobbyist

Ex-FCC Chairman Larry Fly was once a stickler for many things. Now he is a lobbyist for several opposite things. When he was head of the Federal Communications Commission he parred the "Pot of Gold" program from the air because it was a lottery. Now he is attorney for the "Pot of Gold."

This week, Fly has turned another unique somersault. As FCC chairman, he was strong against granting radio licenses to newspapers. He did not believe in monopolies of opinion. Also Fly's best friend for twelve long years happened to be Franklin Roosevelt. The late president elevated him from a lowly lawyer to various positions of trust and power.

This week, however, Fly is acting as attorney for John Ewing, Louisiana newspaper and radio operator, who was one of FDR's bitterest enemies in the south.

Ewing helped lead the move to steal Roosevelt electors in the electoral college. He owns the Shreveport Times, The Monroe, La., Morning World and the Monroe News-Star, Station KTDS in Hot Springs, Ark., and lists himself as owning stations KTDN and KWKH in Shreveport.

The latter of these is one of the most powerful in the country—50,000 watts. Despite this,

Ewing is now applying for another 50,000-watt station in New Orleans, and is boasting that with the influential Larry Fly behind him he will get it. It will be interesting to see if FCC members bow before their former chairman.

Note—Ewing has retained Clark Salmon, a New Orleans New Dealer, as a front.

Truman's Red Feather

It has been a long time since the face of 11-year-old Sigrid Stengel, German war refugee, has lit up as it did when she visited the White House the other day.

You wouldn't have thought that such a pretty and poised little girl could have known the horrors of war. She wore a blue cotton dress and looked like any little American girl as she pinned a red feather on President Truman symbolizing the start of the Community Chest drive.

It has been five years since Sigrid saw her Jewish parents taken away by S. S. men in southern Germany. Later her older sister also "disappeared." Now Sigrid is living with a cousin in Washington.

Three other children who have been aided by the Community Chest accompanied Miss Beatrice Hodgson, a Chest official, as Sigrid pinned the red feather on the president.

Mr. Truman thanked her, then reached up as if to remove the feather.

"Don't you want to wear it?" asked Miss Hodgson.

"Oh, yes," replied Truman. "I was thinking—"

Miss Hodgson had the same

thought. "Sigrid," she asked, "wouldn't you like to have that feather as a souvenir?"

"Yes, I'd love it."

"All right, Sigrid," said the president, "you can have it. But since you pinned the feather on me, you'll have to unpin it."

Sigrid lost no time in complying. When she left the White House, she was carrying the feather like a trophy, and if her thoughts drifted back to the bitter past, you couldn't tell it from her million-dollar smile.

Major reason for the miner food shortage, he explained, "is that before the war, miner stores

were accustomed to buying direct from the big meat packers rather than through wholesalers. The big packers are in short supply, however, and have had to take care of their wholesaler customers first. In one case, Kilgore told Truman, he found a meat supplier had only five carcasses to supply the meat needs of miners in four counties for a whole week.

Kilgore also pointed out that each miner now has a larger family to feed than before the war.

"The average age of the miner has risen during the war years from about 27 to about 47," he told the president. "The result

is not only that the miner must be assured of the food necessary to do his tough job but he must have enough food for his family.

"Ah—the OPA," guessed Truman immediately. "What have you got on your mind?"

Goss replied that he still had hopes of converting the president to the idea that maximum production could only be achieved by relaxing price controls.

"The miners know Harry, that you took over the mines not long ago," Kilgore reminded Truman, "and they'd like to know why you couldn't take over the farms and food processing plants to insure the distribution of food where it is needed."

The president dodged this question, but assured Kilgore steps will be taken to channel food to

the coal fields. He said he would confer with Secretary Anderson about the possibility of channelling food to the West Virginia miners.

tion. The groceries in the coal areas simply have not been able to get meat, flour, corn meal and dairy products for several months with the shortage so acute that miners are now talking about a hunger strike.

"But at the same time," Kilgore told the president, "hotels and restaurants through West Virginia have been able to buy reasonable amounts of meat."

Major reason for the miner food shortage, he explained, "is that before the war, miner stores

were accustomed to buying direct from the big meat packers rather than through wholesalers. The big packers are in short supply, however, and have had to take care of their wholesaler customers first. In one case, Kilgore told Truman, he found a meat supplier had only five carcasses to supply the meat needs of miners in four counties for a whole week.

the coal fields. He said he would confer with Secretary Anderson about the possibility of channelling food to the West Virginia miners.

tion. The groceries in the coal areas simply have not been able to get meat, flour, corn meal and dairy products for several months with the shortage so acute that miners are now talking about a hunger strike.

"But at the same time," Kilgore told the president, "hotels and restaurants through West Virginia have been able to buy reasonable amounts of meat."

Major reason for the miner food shortage, he explained, "is that before the war, miner stores

were accustomed to buying direct from the big meat packers rather than through wholesalers. The big packers are in short supply, however, and have had to take care of their wholesaler customers first. In one case, Kilgore told Truman, he found a meat supplier had only five carcasses to supply the meat needs of miners in four counties for a whole week.

Kilgore also pointed out that each miner now has a larger family to feed than before the war.

"The average age of the miner has risen during the war years from about 27 to about 47," he told the president. "The result

is not only that the miner must be assured of the food necessary to do his tough job but he must have enough food for his family.

"Ah—the OPA," guessed Truman immediately. "What have you got on your mind?"

Goss replied that he still had hopes of converting the president to the idea that maximum production could only be achieved by relaxing price controls.

"The miners know Harry, that you took over the mines not long ago," Kilgore reminded Truman, "and they'd like to know why you couldn't take over the farms and food processing plants to insure the distribution of food where it is needed."

The president dodged this question, but assured Kilgore steps will be taken to channel food to

the coal fields. He said he would confer with Secretary Anderson about the possibility of channelling food to the West Virginia miners.

Pay Dirt in the Big Mud dy

Plan to Harness the Missouri Embraces One-sixth of Nation

How To Hold
FALSE TEETH
More Firmly In Place
Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just spray a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gumbo, gooky, pasty taste or feeling. Does not stain. Checks plate odor (denture breath). Get FASTEETH today at any drug store.

The man with the shovel is Brig. Gen. Lewis A. Pick, who engineered China's famed Ledo Road. Here he's breaking ground for his dream project to make pay dirt of the Big Muddy, a project that embraces one-sixth of the nation. Scope of program to harness the Missouri and its tributaries in nine states is shown on map.

The Highway Patrol Says:

Following too closely is doubly dangerous. If the vehicle ahead stops suddenly, you may crash him and be hit by the car behind you. The thumb rule of one vehicle length behind for every ten miles per hour applies under good conditions, but not when highways are wet or icy.

of Indian Affairs, Geological Survey, Fish and Wildlife Service and National Park Service of the Department of Interior, Soil Conservation Service of the Department of Agriculture, Federal Power Commission and the various departments of states concerned in the development program.

Engineering problems aren't the only headaches bothering Pick. For example he has Indian troubles.

Congress wrote into its 1946 deficiency appropriation act the stipulation that actual work on Garrison Dam itself could not be undertaken without okay from the Indians on the Ft. Berthold reservation, about 50 miles upstream from the dam. This land will be 190 feet under water one of these days.

So, Pick met at Elbowoods, N. D., with representatives of the Hidatsa, Mandan and Arikara tribes. The Indians declared they had little use for the white man or his works and would die before they gave up their land. Pick

Dear Mom and Dad—

Are your sons and daughters working in other states? More to the point, are they working there because they do not have the same opportunity in Missouri? If he or she is working for an organization that might be interested in placing a branch plant in this state, wouldn't it be pretty nice if a letter from you started the wheels into motion? Who knows, maybe some day the organization would send that boy of yours back to Missouri to run the plant... It's just a thought... but new industries have been started working in another state and might come under this general classification, why not drop us a line so we can keep track of our wandering native Missourians?

Cordially yours,
MISSOURI STATE DEPARTMENT
of RESOURCES and DEVELOPMENT
State Office Building • Jefferson City, Mo.

P.S. As a suggestion, why not clip this and send it to him and tell him that Missouri again is the land of opportunity... where people are real, friendly folks and neighbors.

Yes, L.S./M.F.T.
